PRINCIPLES OF FIRE INVESTIGATION - Course #01-01-0026

Principles of Fire Investigation trains fire officers and entry-level fire investigators to determine the origin and cause of fires, as required by NYS law, addressing National Fire Protection Association (NFPA) considerations for conducting such investigations. This course provides a basic understanding of fire behavior and its role in determining a fire's origin and cause. It includes basic building construction, fire dynamics, and causes; accidental fires; incendiary and vehicle fires, and those elements that are essential to fire investigation, including scene documentation, interviewing, and evidence collection.
