# ANNOUNCEMENT

## OFFICER WORKSHOP

The purpose of this course is to address the supervisory and administrative issues regularly confronted in the fire service. Officers will be informed on the “state” of the Emergency Management Office, the Emergency Support Unit (ESU) team, and facility upgrades to the Fire Training Center. Officers will obtain a thorough understanding of the new rope law, the revised open burn law and workman’s compensation law. An overview of ICS 100, 200 and 700 as well as run cards and the County’s Communications SOG will enable personnel to operate efficiently during an incident. Training issues will be addressed including enrollment of students, access of training records through the “TIMS” system, input into development, tri-county “boot camp” and the role of county fire instructors in conducting OSHA and HazMat “refresher” programs.

### WHEN:

**SATURDAY**  
**9:00 AM-12:00 PM**

March 20, 2010

*\*Course schedules are subject to change based on NYS funding and class enrollment.*
