

Due to the recent change in the New York State law allowing blue lighting on Fire Apparatus and Emergency Response Vehicles, WNY Emergency Vehicle Solutions is offering a limited time special.

25% off all Blue Lights and Installation*

Help keep your Apparatus, Response Vehicles and most importantly your Responders safe while on scene by adding blue lighting to the rear of your Emergency Vehicles.

Studies have proven that having highly visible blue lights displayed on Emergency Vehicles drastically reduced the amount of on scene accidents.

WNY Emergency Vehicle Solutions carries products from a variety of lighting companies so we will be able to match the new blue lights with your current lighting arrangements.

For more information please call 585-278-7254 or email owner@wnyevs.com

www.WNYEVS.com

* 25% will be discounted from the final invoice total. This offer expires November 1st 2010.
