TRAINING COURSE ANNOUNCEMENT

Incident Command System National Training Curriculum

Intermediate ICS for Expanding Incidents (I-300)

**Genesee County Office of Emergency Services
7690 State Street Road
Batavia, New York 14020**

Wednesday March 21st, 2007

8:30 a.m. – 5:00 p.m.

Thursday March 22nd, 2007

8:30 a.m. – 5:00 p.m.

Friday March 23rd, 2007

8:30 a.m. – 4:30 p.m.

The New York State Emergency Management Office is sponsoring an Incident Command System - Intermediate (I-300) course to be held at the Genesee County Office of Emergency Services in Batavia, New York on 21 -23 March, 2007. This course was developed under the leadership of the NWCG and complies with the NIMS/HSPD-5 requirements for Incident Command System training.

PREREQUISITES

The prerequisite to enroll in this course is completion of the ICS Basic (I-200) ICS for Single Resources & Initial Action Incidents.

To promote understanding of HSPD-5/NIMS requirements, we strongly encourage participants to complete IS-700 National Incident Management System, An Introduction available from FEMA's Independent Study Program at <http://www.training.fema.gov/emiweb/IS/is700.asp> prior to attending this program. More information on NIMS can be found at <http://www.fema.gov/emergency/nims/index.shtm>.

COST

There is no fee for the course. Lunch will be the responsibility of participants. Lodging & Transportation costs are the responsibility of the participant.

WHO SHOULD ATTEND

The target audience for this course is individuals who may assume a supervisory/management role in expanding (Type 3) incidents. Persons likely to assume these ICS supervisory positions would include senior personnel from Emergency Management, Fire Service, Law Enforcement, EMS, Healthcare, Education, Military, & Volunteer organizations active in disaster. Reference the New York State Preparedness Steering Committee guidance on NIMS training, found at www.semo.state.ny.us.

REGISTRATION

Complete the registration form at <http://www.semo.state.ny.us/programs/training/index.cfm>, and fax to SEMO Training & Exercises at (518)322-4987.

~REGISTRATION DEADLINE COB TUESDAY MARCH 6TH, 2007~

Learn how to manage your incidents & events - don't let them manage you!

The complexity of incident management, coupled with the growing need for multi-agency & multi-functional involvement on incidents, has increased the need for a single standard incident management system that can be used by all emergency response disciplines. Institutionalizing the use of ICS is required by Homeland Security Presidential Directive #5.

Use of the Incident Command System by public safety & private sector organizations is the standard throughout the country. ICS is used in a variety of applications including:

Fires (structural & wildland)	Hazardous Materials Incidents
Law Enforcement Operations	Search & Rescue
Air, ground, & water accidents	Multi-Casualty Incidents
Natural Disasters e.g., tornadoes	Planned Events e.g., parades, concerts, etc.

For additional information & resources on the Incident Command System, visit our ICS website at <http://www.semo.state.ny.us//programs/training/ICS/ICSexplain.cfm>

COURSE OBJECTIVES

1. Describe how the National Incident Management System (NIMS) Command and Management component supports the management of expanding incidents.
2. Describe the incident/event management process for supervisors and expanding incidents as prescribed by the Incident Command System.
3. Implement the incident management process on a simulated Type 3 incident.
4. Develop an Incident Action Plan for a simulated incident.

This course is designed to enable personnel to operate efficiently during an incident or event within the Incident Command System. This course focuses on management of expanding incidents.

CURRICULUM STRUCTURE AND TOPICS

Unit 1 – Course Overview
Unit 2 – ICS Fundamentals Review
Unit 3 – Incident/Event Assessment & Incident Objectives
Unit 4 – Unified Command
Unit 5 – Incident Resource Management
Unit 6 – Planning Process
Unit 7 – Demobilization, Transfer of Command, & Closeout
Unit 8 – Course Summary

COURSE COMPLETION

An open book exam will be given at the end of the course. Participants who achieve a passing score on the exam will receive a Certificate of Completion for the course.
